Bring enchantment to your summer garden You will revel in these richly colored new lilies with their vivid splashes of reds, yellows and pinks. Here is a major garden attraction years ahead of time. No matter where you live, you can enjoy better results with this new race of hardy vigorous lilies.

Presented by MAX SCHLING SEEDSMEN, INC.

YOU CAN GROW THESE LILIES WITH THE GREATEST OF EASE. Here is how you do it . . . select a filtered sunlight spot if you live in the warmest sections of our country or a full sunlight spot if you live where cooler summers prevail. Plant with four to six inches of soil over the top of the bulbs. Mulch with good garden compost, leaf mold or old well rotted manure. A moist, porous, well aerated, humus-rich soil, is of course, ideal.

PAGODA, *Mid-Century Hybrid*. Upright-flowering with large heads of richest apricot blooms on four foot stems. Dark maroon stems, glossy, deep-green foliage. Vigorous, robust, yet immensely graceful, flowers late in June, early July.

each, \$1.25; three for \$3.50

PAGODA

***L. centifolium* PINK.** Once in a while a pink sport or mutation shows up in our trumpet lily fields. Through intensive hybridizing we were able to accentuate this unique color and offer a limited number of these lilies, all of them magnificent, robust giant trumpet types in shades of fuchsia and rose-pink. These lilies need filtered sunlight or light shade to bring out the finest color, as they are apt to bleach in the sun.

each, \$4.00; three for \$11.00; per dozen, \$42.00

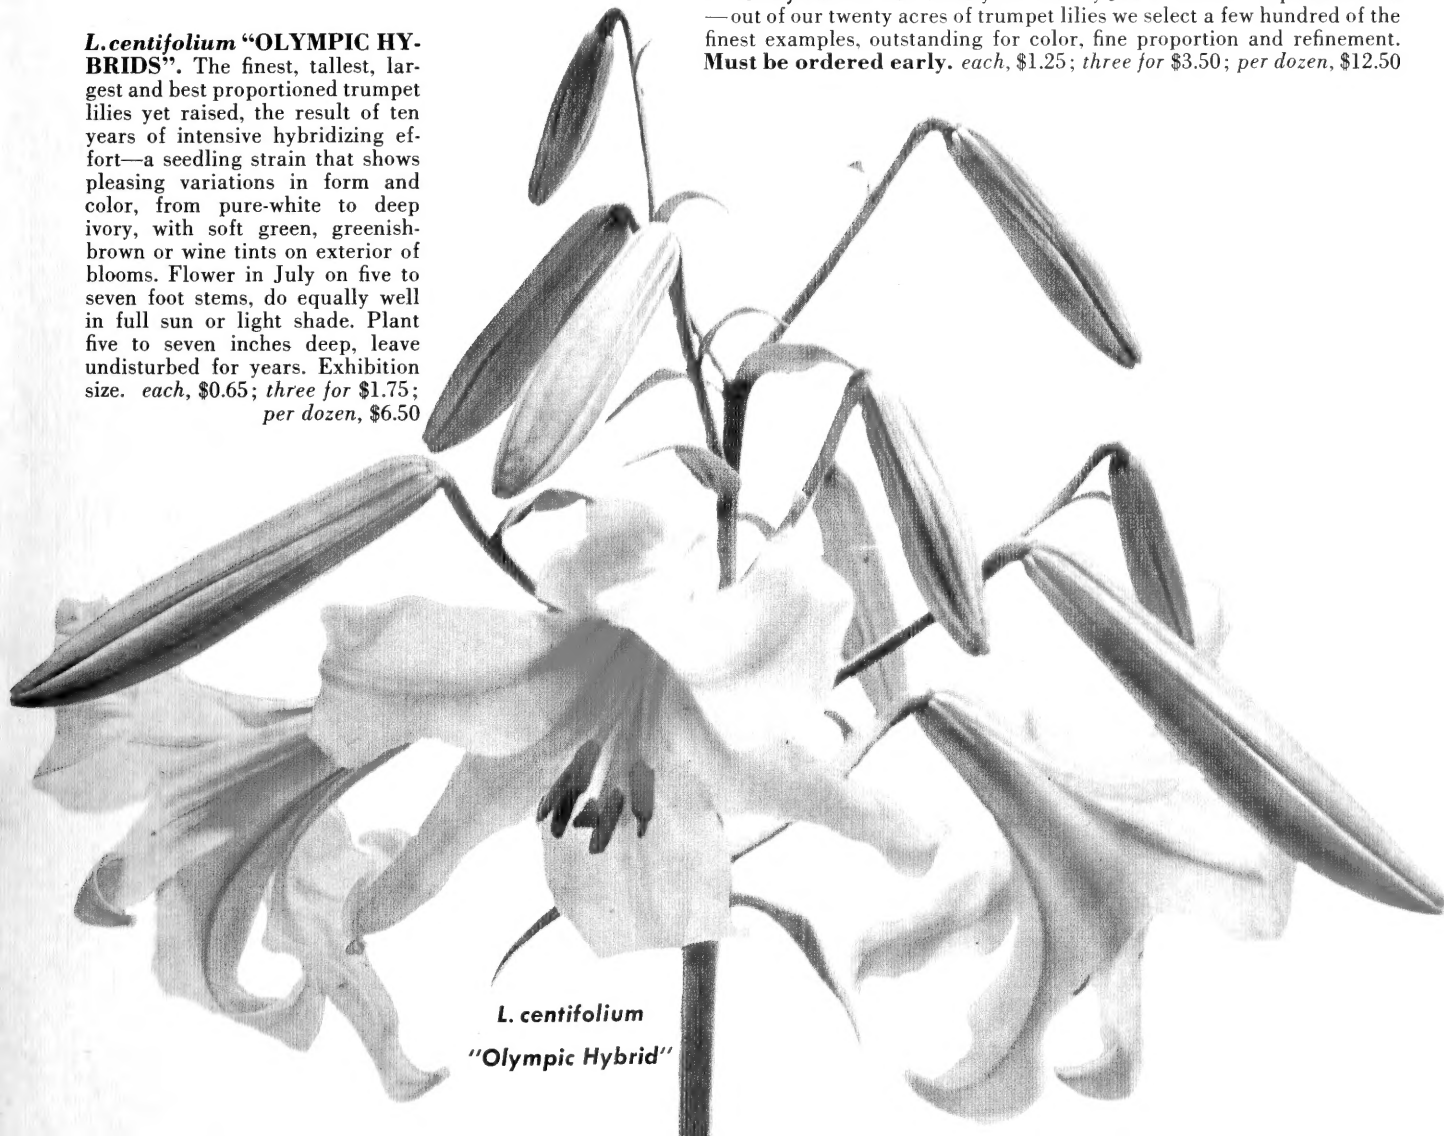

***L. centifolium* PINK**

***L. centifolium* "OLYMPIC HYBRIDS".**

Flower in July on five to seven foot stems, do equally well in full sun or light shade. Plant five to seven inches deep, leave undisturbed for years. Exhibition size. *each, \$0.65; three for \$1.75; per dozen, \$6.50*
